BLOOD DONATION CAMP

02-11-2021

A **blood donation** occurs when a person voluntarily has blood drawn and used for transfusions and/or made into biopharmaceutical medications by a process called fractionation (separation of whole blood components). Donation may be of whole blood, or of specific components directly,

Today in the developed world, most blood donors are unpaid volunteers who donate blood for a community supply. In some countries, established supplies are limited and donors usually give blood when family or friends need a transfusion (directed donation). Many donors donate for several reasons, such as a form of charity, general awareness regarding the demand for blood, increased confidence in oneself, helping a personal friend or relative, and social pressure.

CONSTITUTIONAL DAY

26-11-2021

The **Constitution of India** (IAST: *Bhāratīya Saṃvidhāna*) is the supreme law of India. The document lays down the framework demarcating fundamental political code, structure, procedures, powers, and duties of government institutions and sets out fundamental rights, directive principles, and the duties of citizens. It is the longest written constitution of any country on earth. B. R. Ambedkar, chairman of the drafting committee, is widely considered to be its chief architect. It imparts constitutional supremacy (not parliamentary supremacy, since it was created by a constituent assembly rather than Parliament) and was adopted by its people with a declaration in its preamble. Parliament cannot override the constitution. It was adopted by the Constituent Assembly of India on 26 November 1949 and became effective on 26 January 1950. The constitution replaced the Government of India Act 1935 as the country's fundamental governing document, and the Dominion of India became the Republic of India. To ensure constitutional autochthony, its framers repealed prior acts of the British parliament in Article 395. India celebrates its constitution on 26 January as Republic Day. The constitution declares India sovereign, socialist, secular, democratic republic, assuring its citizens justice, equality and liberty, and endeavours to promote fraternity. The original 1950 constitution is preserved in a helium-filled case at the Parliament House in New Delhi. The words "secular" and "socialist" were added to the preamble in 1976 during the Emergency.

Constitutional day celebration was conducted on 26-11-2021 in seminar hall of Govt. Degree College, Yeleswaram.

PROGRAMME ON HIV AIDS

01-12-2021

AIDS refers to acquired immunodeficiency syndrome. With this condition, the immune system is weakened due to HIV that's typically gone untreated for many years. If HIV is found and treated early with antiretroviral therapy, a person will usually not develop **AIDS**. HIV causes AIDS and interferes with the body's ability to fight infections. The virus can be transmitted through contact with infected blood, semen or vaginal fluids. Within a few weeks of HIV infection, flu-like symptoms such as fever, sore throat and fatigue can occur. Then the disease is usually asymptomatic until it progresses to AIDS. AIDS symptoms include weight loss, fever or night sweats, fatigue and recurrent infections. No cure exists for AIDS, but strict adherence to antiretroviral regimens (ARVs) can dramatically slow the disease's progress as well as prevent secondary infections and complications.

To create awareness about the AIDS the NSS volunteers and students of Govt. Degree college, Yeleswaram has conducted a Rally on Aids on **1-12-2021**.

Before conducting the Rally, a meeting was conducted in the College premises, in this meeting **Dr, D. Venkata Rao** Principal gave the message about the Aids to the gathering and started the rally.

PLANTATION PROGRAMME

26-01- 2022

Forests have a three-pronged effect on our climate: They cool the air through the process of **evapotranspiration**; they reduce air pollutants (including CO₂, a known greenhouse gas) through **photosynthesis**; and their dark, dense leaves absorb sunlight that warms the planet. Most people are familiar with the idea that trees and vegetation help to defend our planet against global warming. However, recent scientific studies show those benefits depend on where those trees are planted.

The NSS volunteers and students of Govt. Degree College have been planting the different tree species in and around the college premises with the help of Andhra Pradesh Forest Department. The NSS volunteers were supplied the plant species by the A.P. Forest Department. The plantation programme was started on 26th January 2022 by **Dr. K.
