Title of the Activity	Blood group testing
Conducted through (National/State/Zonal/NRC/District/ Regional/College etc.,	College level
Name of the Organizing Department/Committee	RRC & WEC
Details of Resource Persons(Name, Designation etc.)	-
No.of Participants	73
Objective of the activity: ● To know the blood groups and HB levels of all first year students especially girl students	
Brief Report on the Activity : ● Most of the girl students in the rural areas are found to be anemic because of the local conditions and improper diet which leads to severe ill health conditions and miscarriage at the time of pregnancy. ● Frequent testing and monitoring of Hb levels in girls can prevent this situation. ● Blood group and HB level testing was conducted to all first year students under RRC and WEC ● It is aimed to know the blood group of students and their HB levels so that the students who are suffering with anemic conditions can be treated as per requirement. ● students with lower Hb levels were provided Iron tablets from the local ANMs and advised to take iron rich food like leafy vegetables, ragi, nuts etc.,	

Outcome of the activity:

- Some students were able to know their blood group.
- students with lower Hb levels were identified .

Objective of the activity: ● To familiarize the concept of Mole in chemical calculations among school and college students.	
Brief Report on the Activity : ● A mole is an SI unit for measuring atoms and molecules and is named after its discoverer, Amedeo Avogadro. ● Chemistry enthusiasts, students and chemists celebrate October 23 as Mole Day every year. This day is celebrated from 6:02 am to 6:02 pm, which forms the date 6:02 10/23 denoting the Avogadro number. 6.02×10^{23} is known as the Avogadro number which defines the number of particles present in a single mole of a substance. ● A mole is an SI unit for measuring atoms and molecules and is named after its discoverer, Amedeo Avogadro. ● Principal, Dr.D.Suneetha explained the mole concept with daily life examples.	

- *The Vice-Principal & Lecturer in Chemistry, Dr. D. Chenna Rao, elaborated the need of understanding mole calculations for chemical reactions.*
- *Students also expressed their idea about the mole concept.*
